

## Flexing its arms in Pune

EcoFlex has created yet another success story and this time it's based in Pune. Mr. Uday Tol — our Marketing Partner in Pune — has succeeded in creating a productive market for EcoFlex, through his company 'Akshay Enterprises'. Thanks to Mr. Tol's efforts, in the recent past, EcoFlex has worked on many new sites. A look at some of the projects:

➤ Akshay Health Institute

### A new zone for the youth

**Akshay Health Institute** is a fitness centre located near Range Hill at Shivajinagar. Situated approximately 1 km from Pune University, it makes for a good workout place for the college goers. The site was installed with *Tuffloor* over an area of 500 sq. ft. with designs that were fairly new and modern — zigzag patterns of Terracotta and Black tiles were fixed to give the place a sophisticated look.

### A perfect establishment

Installed with 1,200 sq. ft. of *Tuffloor* stands a 10,000 sq. ft. clubhouse gym in **Rohan Nilay scheme**. Constructed by Rohan Builders, this place is located near Spicer College at Aundh. *Tuffloor* makes this fitness zone a perfect place to exercise on, since it is easy on calves and ankles.

Rohan Nilay Clubhouse ➤

### A place for the big boys

**Solaris Fitness Club** has six well-equipped gyms in Pune. Out of these, the one located at Mayur colony in Kothrud has installed *Tuffloor* on an area of 1,000 sq. ft. Now this gym can boast of yet another addition to its already impressive list of attributes.

➤ Solaris Fitness Club

## Building trust

One of Pune's well known builders, *Aditya Builders* have shown keen interest in EcoFlex products. These have been installed at some of its constructed sites. A quick glimpse follows:

Situated at Bavdhan, **Aditya Shagoon** has a 3,000 sq. ft. clubhouse. The place consists of a 650 sq. ft. gym that has been installed with *Tuffloor*.

Aditya Shagoon Clubhouse

Located at Bavdhan, **Aditya Nisarga** is a bungalow that encompasses a 2,000 sq. ft. clubhouse. Although three quarters of the clubhouse has wooden flooring for aerobics, the gym has been installed with *Tuffloor*. This safety flooring occupies the remaining 500 sq. ft.

Aditya Nisarga Clubhouse

## The grand entrance

Located near Spicer College, **Kohinoor Planet** is a bungalow owned by Mr. Satish Gupta, a small-scale industrialist. The pathway at the entrance to this bungalow spans approximately 500 sq. ft. This has been

installed with *Tuffloor*, with the surface being fixed with Terrazo tiles to give it a modern texture.

Kohinoor Planet

## Runathon bats for EcoFlex

**Ivy Glen Clubhouse**, of Vascon Engineering Pvt. Ltd., has installed *Runathon* for its 600 sq. ft. cricket pitch. Located at Marie Gold Scheme in Kalyani Nagar, the club will surely delight its members — whether cricket enthusiasts or those conscious about safety — with this initiative.
