

Kolkata calling!

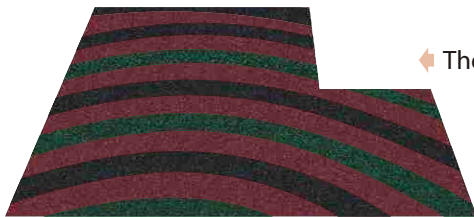

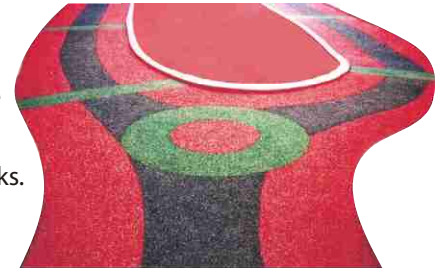

New sites have been opened in Kolkata with the goal of expansion in mind.

PlaySafe has been installed at **Ideal Towers**, to cater to its children's play area. It has been fitted with full-fledged play equipment for children to enjoy and safely have a good time.

◆ *Ideal Towers*

Ideal Towers is also fitted with *Runathon*, our unique jogging track. *Runathon* is a specially formulated EcoFlex surface that is ideally suited to Jogging Tracks. The biggest advantage lies in its shock absorption property that reduces fatigue and helps prevent unwanted injuries, making *Runathon* the final word in jogging track surfaces.

◆ The **Kool Kidz School** also has *Playsafe* installed for its play area.

With an increase in fitness awareness, comes a rise in fitness expectation. Hence, *Tuffloor*, a specially formulated EcoFlex surface that has been installed at **Talwalkar's Gym**, Kolkata, for its free weight area. ◆

All this shows our commitment towards making Kolkata a beacon of consolidation for EcoFlex. Newer markets loom large, and things are looking promising!
